

Anton Serdyuchenko / Java developer

Russia, Moscow

+7 (916) 154 – 92 – 00

anton415@gmail.com

Skills Summary

Java, CSS, JavaScript, React, Git, SQL, Figma.

Experience

Bank of Russia

Java developer / Dec 2019 – Present

I am working on creating the banking platform as part of the implementation of the IT Strategy of the Bank of Russia. My responsibilities include the implementation of forms according to layouts from Figma, creating new components based on Vaadin and editing component styles.

Junior Java developer / Oct 2017 – Dec 2019

I work in set of tasks "Accounting for the application of measures of influence on shareholders (participants) of KO and other persons". As part of this complex, I perform the role of a junior java developer. In the part of the front end of development technologies are used: CSS, JavaScript, JSP. I actively propagated the need to use JUnit tests, and I was entrusted to start covering the application with tests, thereby increasing the reliability of the application.

Education

Moscow Aviation Institute

Master, Economic Security Management / 2022

Bachelor, Applied Informatics / 2017
